

the JUNIT LAMP

designed by Julia Jessen | 2016

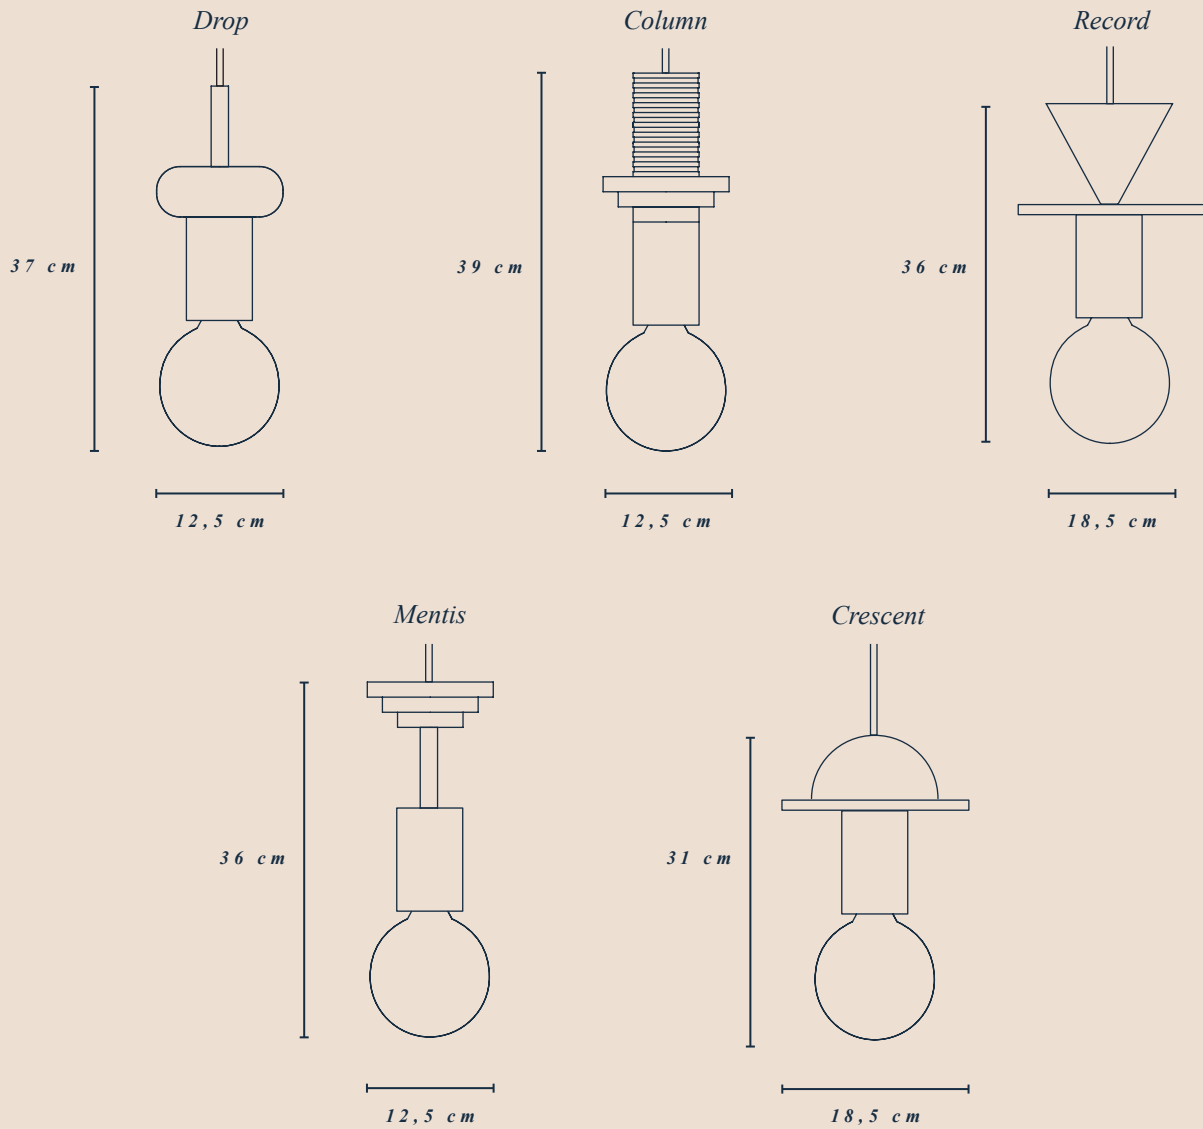

Junit curated versions - „Dia“ | „Pan“ | „Karma“

The geometric shapes and intense color palette of the *Junit* lighting draws inspiration from the Bauhaus movement. By a playful use, the eight different elements of the versatile lamp can be freely combined and spark creativity. Either with a self-composed version or an exclusive compilation of the designer, the lighting brings personality into any home. The bulb complements the colorful lamp with its oversized, milky glass which produces warm, ambient light.
