Unison - cup | carafe | sugarbowl with cover piece in coral

DESIGN

The Unison set is a ceramic tableware collection with seven different pieces. It consists of a coffee pot, big and small plate, soup bowl, sugar bowl, cup and a universal fitting lid.

The ceramic is dyed with pigments and available in five special colors, all mixed by hand in a local workshop. Only the inside of the pieces are glazed; the outer surface is untreated and raw. All parts of the collection are stackable and fit into each other. This way, the elements can be combined as desired to form a striking and artful object.

PRODUCT TYPE

Ceramics Set (7 pieces)
